**Libraries:** React, NodeJS, ExpressJS, MongoDB, Storybook, Gatsby, Strapi

## Work Experience

### TVGLA

*March 2022 - Present*

- Administer the entire software development lifecycle for eight critical projects of the company with 100% on-time delivery while passing all the QA tests.
- Maintained current websites, ensuring all the websites had proper testing done and performed QA on different devices for a 34% increase in customer engagement and retention.
- Improved ADA compliance on the old websites and maintained AA to AAA compliance on all the new projects.

## Projects

### HBOMax Toolkit

- Overhauled user experience and updated the site's structure for AA ADA compliance standards, which improved the website's reach.
- Modeled testing tools that help ensure that site meets quality standards, which increased loading speed by 20%.

### Batman AR

- Assembled the project from the ground up, following all the modern coding practices
- Collaborated with Designer and Director teams to build a project approved by both sides.
- Investigated how to make Augmented Reality Experience work well on all devices, improving the performance and loading of assets.
